

Saieesh Soma

Software Engineer

A dedicated and motivated MERN Stack Developer with 11 months of experience seeking opportunities to contribute my skills in full-stack web development and problem-solving in a dynamic team environment.

Work history

2024-01 - MERN Stack Developer

Current Lyros Technologies, Hyderabad

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Built responsive, user-friendly interfaces with React, utilizing hooks.
- Integrated third-party services and APIs to enhance application functionality.
- Designed RESTful APIs, improving frontend-backend communication efficiency by 25%.
- Quickly learned new concepts, demonstrating adaptability and proficiency.
- Diagnosed and resolved 30+ technical issues, boosting application uptime by 20%.
- Adaptable and proficient in learning new concepts quickly and efficiently.
- Managed project codebase and version control using Git and GitHub.

Projects

- **MLM website** - I built an MLM platform using React.js, Node.js, MongoDB, and Express.js, ensuring secure user authentication with hashed passwords, which reduced unauthorized access attempts by 50%. The platform achieved 100% cross-device compatibility with a responsive design utilizing CSS3 and Bootstrap, leading to a 35% increase in mobile user retention. I collaborated closely with a cross-functional team to seamlessly integrate features and ensure successful project deployment. Additionally, I implemented regular feature updates and system optimizations based on user feedback, which significantly improved platform usability and performance.
