SUMMARY

A dedicated and motivated MERN Stack Developer with 2+ years of experience seeking opportunities to contribute my skills in full-stack web development and problem-solving in a dynamic team environment.

EXPERIENCE

MERN Stack Developer 09/2022 - Present
Lyros Technologies Private Limited Hyderabad, India

Company specializing in web development solutions

- Developed responsive web applications using MERN stack (MongoDB, Express.js, React.js and Node.js)
- Built responsive and user-friendly interfaces with React, utilizing hooks and state management
- Managed version control using Git, facilitating collaboration among team members while preserving code integrity
- Enhanced user experience with intuitive interface design and responsive web applications
- Participated in training sessions, workshops, and online courses to enhance technical skills, soft skills, and industry knowledge relevant to MERN stack development

EDUCATION

Bachelor of Science: Agriculture 08/2016 - 07/2020
Rai Technology University Bengaluru, India

PROJECTS

Restaurant Billing Software

Created restaurant's digital infrastructure, designed to streamline menu organization, enhance customer experience, and optimize order processing. Built using the MERN stack (MongoDB, Express.js, React, Node.js), this system enables restaurant owners to add, update, and remove menu items dynamically.

- **Dynamic Menu Management** – Add, update, or remove menu items in real time with pricing and availability control.
- **Seamless Order Integration** – Connects with the kitchen and order management system for efficient processing.
- **User-Friendly Interface** – Responsive and intuitive design for smooth customer navigation and engagement.
- **Performance Optimization**: Optimized database queries and API responses to ensure fast data retrieval and scalability.
- **Order History & Analytics**: Integrated analytics dashboard for restaurant owners to track sales, popular menu items, and customer preferences.
- Designed and achieved 100% cross-device compatibility with a responsive layout using CSS3 and Bootstrap, increasing mobile user retention by 35%.

SKILLS

HTML · CSS · JavaScript · React.js ·
Node.js · Express.js · MongoDB · Git ·
GitHub · Communication

LANGUAGES

English	Proficient	●●●●●
Telugu	Native	●●●●●
Hindi	Advanced	●●●●●
Kannada	Intermediate	●●●●●

INTERESTS

- ✓ **Playing Chess**
Enjoy engaging in strategic games and improving analytical thinking skills
- ☆ **Reading Books and Articles**
Passionate about exploring varied genres of literature and knowledge through reading
- 🎬 **Watching Movies**
Find entertainment and inspiration through cinematic experiences

PROJECTS

SHNSM-I

Created engaging interfaces on an MLM platform allowing users to easily navigate through offerings; achieved high levels of satisfaction as reflected in a feedback score averaging above 4.5 out of 5 from early adopters.

- Developed a Multi-Level Marketing MLM platform using React.js, Node.js, MongoDB, and Express.js; onboarded over 100 users within five months while ensuring application performance met strict uptime requirements.
- Integrated secure user authentication with hashed passwords, cutting unauthorized access attempts by 50%.
- Designed and achieved 100% cross-device compatibility with a responsive layout using CSS3 and Bootstrap, increasing mobile user retention by 35%.

KEERTHEKA INTERNATIONALS

Launched an interactive e-commerce platform showcasing a diverse array of fans, resulting in a user engagement increase of 40% and boosting customer retention satisfaction ratings across the board.

- Curated a high-quality selection of fan products with detailed specifications and features, enhancing customer engagement by 30% and reducing returns caused by mismatched expectations.
- Developed detailed documentation showcasing the organization's commitment to high-quality standards, streamlining processes and improving clarity for users navigating product information on a platform serving thousands daily.
- Optimized site architecture to enhance user navigation, leading to a 40% increase in product exploration time and significantly boosting customer engagement across the platform.
