Work History

**2024-01 -
Current**

Software Engineer

Lyros Technologies Private Limited, Hyderabad

- Developed responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Collaborated with senior developers to implement frontend components and UI features based on design mockups and wireframes.
- Implemented RESTful APIs for seamless interaction between frontend and backend. Built responsive and user-friendly interfaces with React, utilizing hooks and state management.
- Utilized Git for version control. Assisted in troubleshooting and debugging issues to ensure smooth application performance.
- Participated in code reviews to ensure adherence to coding standards, best practices, and accessibility guidelines.
- Participated in training sessions, workshops, and online courses to enhance technical skills, soft skills, and industry knowledge relevant to MERN stack development.

Project

MISSY COFFEE-CART :

This project is designed by using ReactJs , Node ,MongoDB & Express js . User Authentication: Implemented signup and login functionality,

allowing users to create accounts and securely authenticate. Shopping Cart: Implemented a responsive shopping cart feature that dynamically updates with selected items, quantities, and prices. Responsive Design: Ensured cross-device compatibility and responsiveness using CSS3 and Bootstrap, providing an optimal viewing experience across desktops, tablets, and mobile devices. Addressed security concerns by implementing secure password hashing and validation to prevent common vulnerabilities.

Education
