- Playing Badminton
- Listening Music

PROFILE

To secure a full-time position with a progressive organization where I can apply my expertise in frontend and backend development, with a particular focus on the MERN stack, to design and implement innovative, scalable, and impactful solutions and contribute to impactful, results-driven outcomes.

WORK EXPERIENCE

LYROS TECHNOLOGIES PRIVATE LIMITED 2022 - PRESENT
Full Stack Web Developer

- Building user-friendly web pages using ReactJS for state management. Implemented backend services and APIs using Node.js and Express, enabling seamless communication with the frontend.
- Integrated Mongo DB as the database to store and manage application data. Conceived and built optimized landing pages in HTML and CSS.
- Developed robust, scalable applications for improved user experience and increased client satisfaction. Adaptable and proficient in learning new concepts quickly and efficiently.
- Assisted in database management tasks, including schema design, query optimization, and data migration using MongoDB and Mongoose.
- Participated in training sessions, workshops, and online courses to enhance technical skills, soft skills, and industry knowledge relevant to MERN Stack Development.

PROJECT - 1 : MLM Website

- React.js, Node.js, MongoDB, Express.js. Developed a multi-level marketing (MLM) website that onboarded 500+ users within the first 3 months. Implemented secure user authentication (signup and login) with hashed passwords, protecting data and reducing unauthorized access attempts by 50%. Created dynamic, real-time dashboard features for shopping and account management, increasing user interaction with the system by 40%.
- Ensured 100% cross-device compatibility by designing a fully responsive interface using CSS3 and Bootstrap, improving user retention on mobile devices.
- Addressed security concerns by implementing validation techniques that reduced system vulnerabilities.

SKYGAMUT SOLUTIONS PRIVATE LIMITED 2020 - 2022
Performance Test Engineer

- Experienced in all phases of performance testing, including test planning, scripting, scenario design, execution, monitoring, results analysis, and reporting.
